

ITW INSULATION SYSTEMS

Intelligent Insulation Solutions Commitment to Innovation

Supportive

Personalized Service via Web, Email, and Phone combined with Engineering Excellence

Experienced

9 Key Professionals with over 190 Years Combined Insulation and Metal Jacketing Experience

Dedicated

Strong Loyalty to our Distributor Network

Responsive

An impressive 98% On-Time Delivery Average

Innovative

New Product Launches such as the recent addition of TRYMER® 25-50

Involved

Industry Support and Leadership with a focus on ASTM Requirements

ITW INSULATION SYSTEMS

Providing Insulation Solutions

Metal Jacketing

We provide aluminum and stainless steel jacketing options for excellent weather and mechanical protection on insulated piping, tanks and equipment

Ell-Jacs™ Plus

Premier protection on the outer surface for the elbow portion of the system featuring polyfilm moisture barrier

TRYMER® PIR

A closed-cell polyisocyanurate offers high performance, excellent k-factor and low cost for pipe, vessel and equipment applications

TRYMER® 25-50

Our latest innovation, this PIR meets all flame/smoke requirements for pipe insulation inside plenums

XPS PIB

Extruded Polystyrene offers excellent resistance to water vapor and absorption in refrigeration, food & beverage applications

SARANEX® Tape and Film

A vapor retarder team that offers the first line of defense against water vapor drive to insulation
